

RUGGEAR RG360

Push-To-Talk
Over Cellular

RG360

The Rugged RG360 is the ultimate choice for workforces in need of a dependable, compact and rugged mobile device. Designed to withstand the harshest conditions, this device is built with a robust and durable construction, earning it an impressive IP68 rating for water and dust resistance. The RG360 is the one of the best solutions for intensive environments, offering clear communication with its powerful speaker and a long-lasting battery for extended usage. You can rely on the RG360 for unmatched durability and productivity in construction, manufacturing, or any other labor-intensive industry.
